Every 15 Seconds something is stolen!

With the AVDEX 111 Equipment Security Lock, your most important office equipment is protected against theft. Made of high-quality hardened steel and designed to secure the machine in position, the AVDEX 111 Equipment Security Lock requires only the turn of a key to protect your most important office equipment from theft.

UNIVERSAL DESIGN WHICH PERMITS SECURING ANYTHING TO WHICH A BOLT MAY BE INSERTED

Easily installed, the AVDEX 111 Equipment Security Lock offers maximum security for a smaller investment than you now have in insurance coverage, with the added advantage of your never having to suffer downtime as a result of theft.

The AVDEX 111 can not be removed without the key

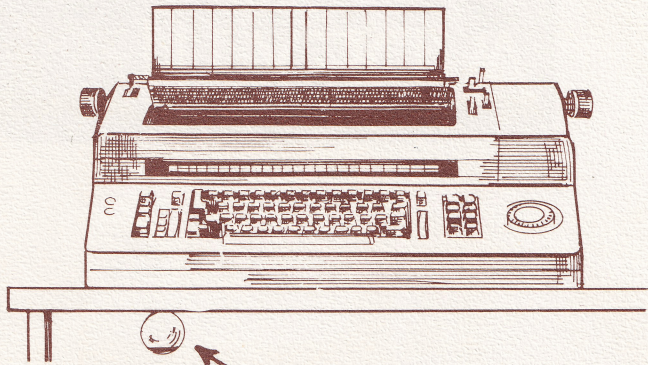

This is the easiest way to secure all desk-top and table-top equipment. The lock protects against the possibility of theft or pilferage of typewriters, adding machines, calculators, tape decks, cash registers, television sets, telephone answering equipment and many other types of valuable equipment. When the AVDEX 111 is installed it is practically impossible to remove without using its special key.
